Dear Mr. President:

If, as administrator of an institution of higher education, you need on your staff a director or assistant for Physical and Health Education, a coach, or an instructor in certain academic subjects, Springfield College with its fifty years of specialized training in these fields and its 1500 alumni now actively employed in such positions, offers you its facilities in selecting and recommending suitable candidates.

We are sending you herewith a roster of alumni. Those in the university and college field are listed on pages 4-7, and on pages 8-16 may be found those serving in secondary and public schools. Because of our intimate personal acquaintance with these men and the detailed record of their experience to date, we know the types of positions for which each is especially qualified, and pride ourselves on our ability to find the "right man for the job". The Class of 1935 contains sixty-five candidates for the Bachelor of Science degree and ten for the Master of Education degree, all with majors in Physical and Health Education.

The Natural Science Division bulletin, also enclosed herewith, will enable you to estimate the basis of selection of applicants (pages 7-8) and the curriculum offered in their training (pages 10-12). On page 6 under the caption of LEADERSHIP will be found certain significant facts.

Many institutions desiring such changes seek our help and make appointments without the inconvenience of a deluge of applications sure to follow general knowledge of a vacancy. Springfield's desire is to strengthen educational institutions in their effort to provide well rounded courses with due attention to health and manhood. The more details supplied concerning a vacancy the more intelligent and specific can be the selection of those nominated as candidates.

Information will gladly be sent concerning our graduate courses and our summer school offerings to any of your staff who may be interested.

Respectfully yours,

G. B. Affleck
Director Natural Science Division
